Save costs with Jumbo rolls

The plastic strap dispenser KA 4 Jumbo is an aid for the extra large rolls (jumbo rolls) of PET strap. The advantage of a Jumbo roll is that you can work longer without having to change to a new roll. This is cost and time efficient. The packaging process is interrupted less often.

The biggest advantage of the dispenser is that it is very easy to change a roll. The pallet with new Jumbo rolls can be placed on the turntable with a forklift truck. Once the top roll is empty, it can be removed and the next roll can be used. As a result, the operator does not have to lift the heavy rolls.

Advantages:

- Cost savings through the use of Jumbo rolls
- Strapping machine can be used continuously
- Simple and safe handling
- For PET strap
- Max. 1,500 kg (max. 7 jumbo rolls)

Technical data	
Turntable	8 mm steel plate
Pallet load (L x W)	Max. 850 x 850 mm (diameter 1.200 mm)
Pallet height	1.600 mm
Pallet weight	max. 1.500 kg (pallet + max. 7 jumbo rolls)
Consumable	12, 16 and 19 mm PET strap
Power supply	230 V, 1 phase, 50 Hz + Nul, 0,5 kW
Control panel	Siemens PLC
Protection	IP 54
Colour	RAL 5003
